Sigma Phi Epsilon at Washington State sees and denounces the difficulties and injustices that are plaguing the black community in our nation today.

The senseless murder of George Floyd has resulted in widespread protests as a result from centuries of inequality and mistreatment toward people of color in the United States. To be silent is to be complicit with historical atrocities toward the Black community that continue to this day.

The Washington Alpha Chapter of Sigma Phi Epsilon supports the Black Lives Matter movement. We as a chapter are committed to helping further educate our brothers and our community about current racial inequalities and their manifestation as white privilege in our society.

Our deepest condolences go out to George Floyd, his family, and others who have suffered as a result of these tragedies.

We are committed to change. We are committed to progress. We stand with you.
